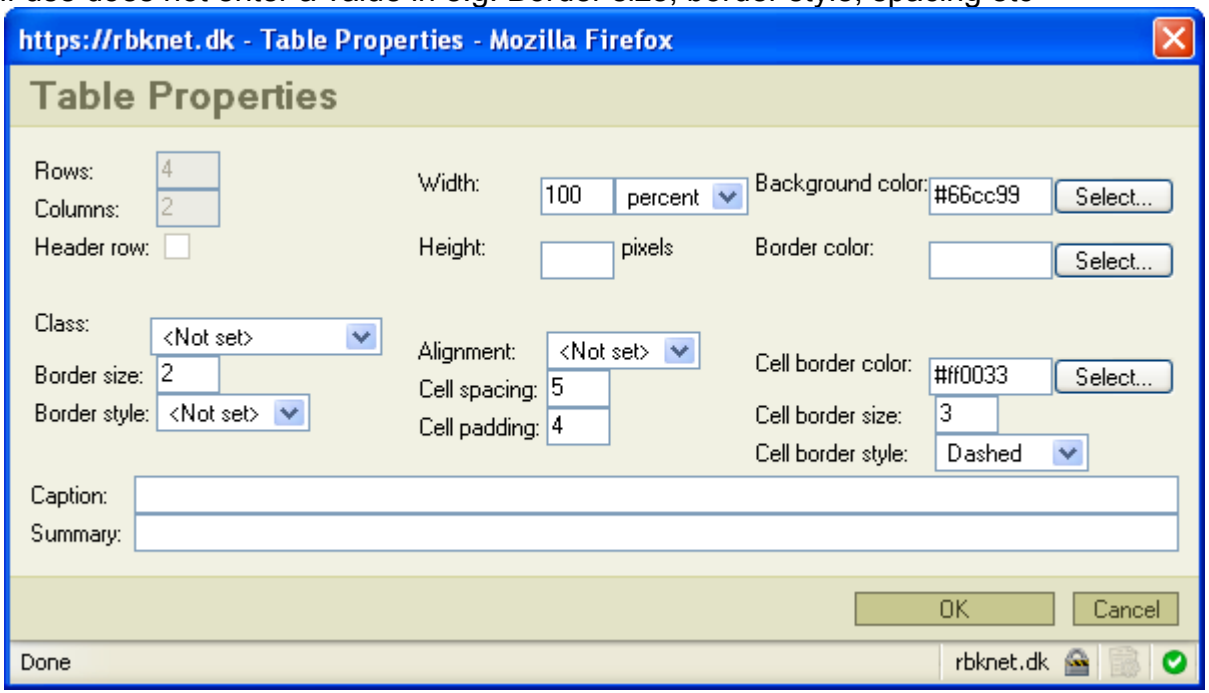
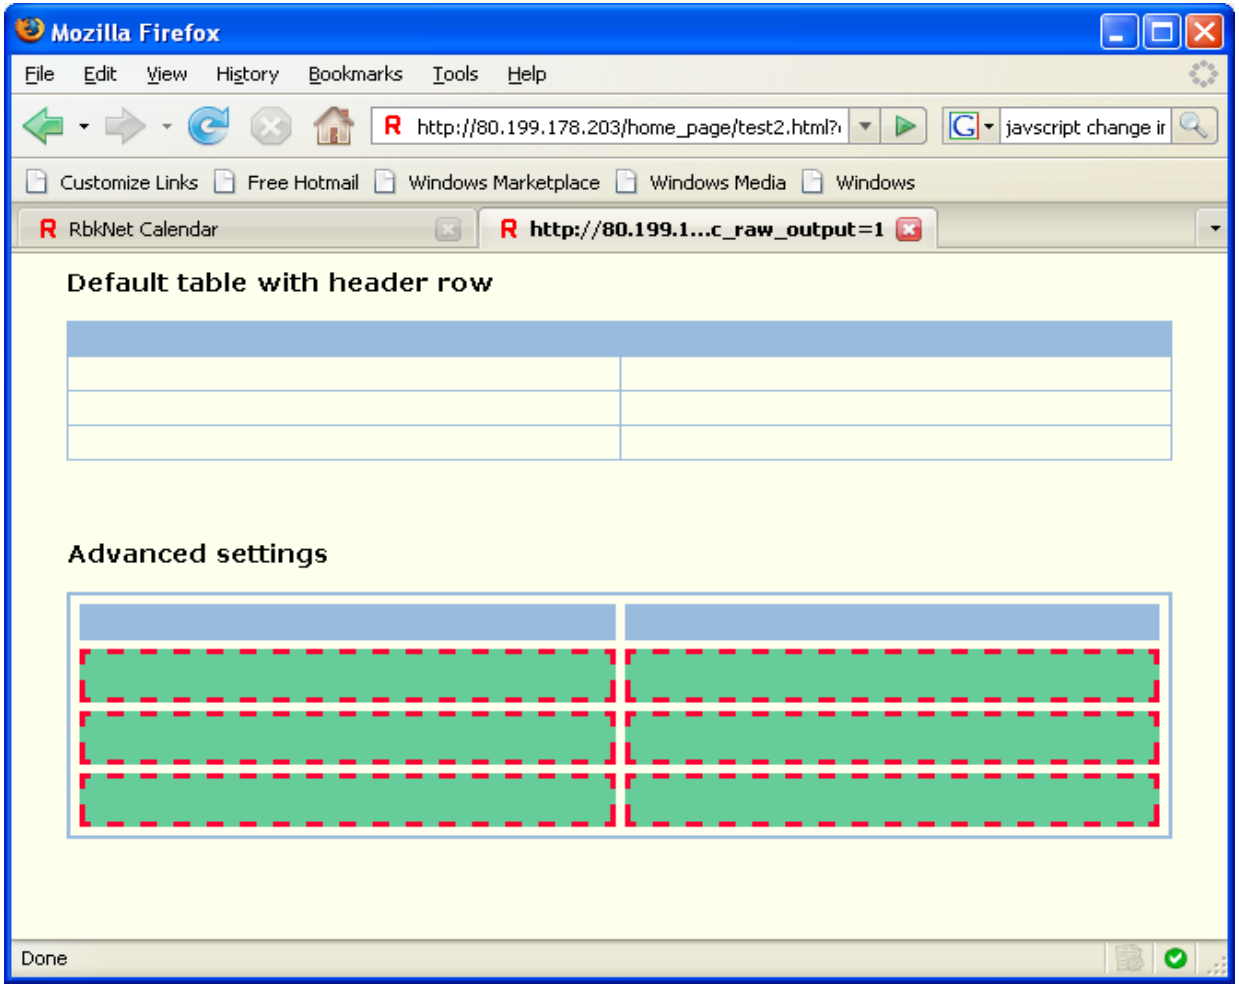
Table Properties extended with color and cell border fields

Default value is assumed if use does not enter a value in e.g. Border size, border style, spacing etc



Default table define with css and advances table sample

Default table defined, just by selecting ”Header row”. Advanced table defined with values on prevoius page. I does not look as much – but the intersing part is the small amount of html/css created (see next page)



HTML and CSS code generated

Source of: file:///G:/Rbk/test.html - Mozilla Firefox
